### PRESS RELEASE

December 18, 2019 (EST-USA)

## Observance of International Migrants Day 2019 2019

The **Indian Diaspora Council International (IDC)**, in collaboration with its global membership and affiliates, is pleased to join with other organizations, associations, agencies and individuals in observance of **International Migrants Day 2019**, recognizing the movements of refugees and migrants, and commitments to enhance their protection.

Today, more people than ever live in a country other than the one in which they were born. While many individuals migrate out of choice, many others migrate out of necessity. In 2019, the number of migrants globally reached an estimated **272 million**, 51 million more than in 2010.

*“All migrants are entitled to equal protection of all their human rights. On this International Day, I urge leaders and people everywhere to bring the Global Compact to life, so that migration works for all”.* United Nations Secretary-General António Guterres

“Throughout human history, migration has been a courageous expression of the individual’s will to overcome adversity and to live a better life. Today, globalization, together with advances in communications and transportation, has greatly increased the number of people, who have the desire and the capacity to move to other places.

“This new era has created challenges and opportunities for societies throughout the world. It also has served to underscore the clear linkage between migration and development, as well as the opportunities it provides for co-development, that is, the concerted improvement of economic and social conditions at both origin and destination.

“Migration draws increasing attention in the world nowadays. Mixed with elements of unforeseeability, emergency, and complexity, the challenges and difficulties of international migration require enhanced cooperation and collective action among countries and regions. The United Nations is actively playing a catalyst role in this area, with the aim of creating more dialogues and interactions within countries and regions, as well as propelling experience exchange and collaboration opportunities.

“Contrary to what some may believe, migrants play a vital role in the global economy. Studies show that immigrants bring growth and innovation in both the countries they come from, and in those they move to. Most Western nations face a demographic time-bomb as their aging populations and low birth rates mean that they will have to rely on immigrants to drive and sustain economic growth. It is, therefore, in the best interests of these developed nations to support a safe and orderly migration

“On Sep. 19, 2016 the UN General Assembly adopted a set of commitments during its first ever summit on large movements of refugees and migrants to enhance the protection of refugees and migrants. These commitments are known as the New York Declaration for Refugees and Migrants (NY Declaration). The NY Declaration reaffirms the importance of the international protection regime and represents a commitment by Member States to strengthen and enhance mechanisms to protect people on the move. It paved the way for the adoption of 2 new global compacts in 2018: the global compact on refugees and the global compact for safe, orderly and regular migration”.

### World Migration Report 2020

“Since 2000, International Organization for Migration (IOM) has been producing world migration reports. The *World Migration Report 2020*, the tenth in the world migration report series, has been produced to contribute to increased understanding of migration throughout the world. This new edition presents key data and information on migration as well as thematic chapters on highly topical migration issues”.
