Good morning. Good evening. Greetings and best wishes to everyone for the New Year.

Thank you Amb. Jaiswal for inviting me to be part of this forum on linkage to Bihar. It's going to be quite a task to summarize 183 years history at this forum in limited time.

I was born in Guyana, formerly British Guiana, a 4<sup>th</sup> generation of Indian parents. I immigrated to the USA in 1968 and settled here. I have roots in Bihar from my great grandfather Pooriya who left India in 1858 to be an indentured laborer in British Guiana and decided to settle there. In fact, my father's name "Saran" is a district in Bihar. In fact, there are many in Guyana named Beharry.

From 1838 – 1920 during the time of British rule, over 240,000 persons from India to British Guiana and 145,000 to Trinidad. Several more thousands were brought to Suriname, Jamaica and other Caribbean countries, with a significant percentage from Bihar.

Today, there are over 1.2 million people of Indian origin in the Caribbean region, speaking English, Dutch, French and Spanish. The 2<sup>nd</sup> migration: A significant number, over 500,000 have emigrated to USA, Canada, UK, the Netherlands and France. We are persons of Indian origin (PIOs), and have made many significant achievements in politics, sports, academic, writing, legal and social segments.

Indian laborers who came to Guyana were from North India, specifically from the Bhojpur and Awadh regions of the Hindi Belt located in the present-day states of Uttar Pradesh, Bihar, and Jharkhand, and a significant minority came from South India.

Despite 183 years in multi-ethnic societies, we managed to preserve Indian culture, traditions, religion, ceremonies, music, movies and foods. In fact, most of the ceremonies, poojas, festivals, and rituals are practiced in original forms from of first arrivals. This sustained us during harsh years of indenturedship, living far away from our motherland. We love Bollywood movies though most of in our generation don't speak Hindi but love the music and stories.

There is always the yearning to trace our roots and connect with ancestral villages in Bihar and UP. Including former T&T PM Kamla Persad-Bissessar, several have done so due to available records but many are missing after so many years. Several of us contributed to ancestral villages in Bihar, building schools, health facilities and ancestral family homes.

We seek the help of the Government of Bihar to facilitate in this quest. It would be good for the descendants of people from Bihar as well as the State of Bihar.

The Indian Diaspora Council is planning a virtual Indo-Caribbean museum to include artifacts, ship and historical records, photos, books, news articles, films, documentaries, and notable personalities.

Two (2) years ago, a consulting company based in Singapore contacted me about information, documents, photos, etc. for a new wing in the impressive Bihar Museum. The Indian Diaspora Council set up the IDC Bihar Museum Historic Artifacts Team, and was willing to support that effort -- but their demands were too much to accommodate.

We look forward to engagement and collaboration for these exciting projects which would keep our journeys alive for generations. Thank you.

*Ashook K. Ramsaran is Guyanese born, USA educated and resides in New York. Founder/president of the Indian Diaspora Council (IDC) and past president of Global Organization of People of Indian Origin (GOPIO), actively engaged in Queens Civic Congress, New York Presbyterian and St John's University and others. Recipient of numerous awards, including India's Pravasi Bharatiya Saman and Uttar Pradesh Ratna Awards, in recognition of his many years of outstanding community service.*
